Sheetal Sheth was definitely the lady of the film festival on Gran Canaria, not only starring in the winning film but also gaining the award as best actress from an impressive list of films and actors. In an exclusive interview with RTN this talented and beautiful actress, based in LA, answered questions about her films and current projects.

Sheetal Sheth, Exclusive Interview

Sheetal Sheth was definitely the lady of the film festival on Gran Canaria, not only starring in the winning film but also gaining the award as best actress from an impressive list of films and actors. In an exclusive interview with RTN this talented and beautiful actress, based in LA, answered questions about her films and current projects.

How do you feel about the success at the festival winning Best Actress for your role in 'the world unseen' and also as part of the best film 'I cant think straight'?

"I am elated- really. Thank you so much for all the support. These films were made from the heart and to see them resonate as they are with audiences is really amazing. You work and pour your heart, sweat, and tears into a project, but you never know if they will reach and/or have the impact you hope...I am humbled by your love. Thanks again."

Both of the films at the film festival that you starred in were British productions. Do you spend much time in the UK? Where did you film and do you have a favourite place to visit in the UK?

"I love Europe and try to find myself there as often as possible...What's nice about the UK is that it really is situated in the centre of so much. It is also full of creativity, vitality, and inspiration. I wish I could spend more time there! We filmed I CANT THINK STRAIGHT in and around London and THE WORLD UNSEEN in Cape Town, South Africa."

You have played many roles including that of being a Lesbian in these films; you mentioned in an earlier interview about your strong religious family, how do they feel about your career?

"My family has been supportive and trust that I will make the right decisions."

You have appeared on the cover of some of the top magazines, including posing in Maxim. Which was your favourite and why?

"Wish I could pick one, but they were all different and meant something unique to me..."

This Week

Have you ever travelled to the Canaries?

"Sadly No..I have been all over Spain, but have yet to visit the beautiful Canaries...!!"

...And what is next for Sheetal?

"I have a film, TROUBLE WITH ROMANCE, coming out in February and a thriller, FIRST FEAR, due later in the year."

RTN congratulates Sheetal Sheth for best actress in the Festival del Sol film festival held during January on Gran Canaria. Clearly an actress to look out for!
