By: Diane Anderson-Minshall | Tue, 2012-05-01 17:21

Fans of Sheetal Sheth, who gayed it up in *I Can't Think Straight* and has turned out a number of great roles since, won't have to wait long to see her on screen again. The trailer for her new film, *Yes, We're Open*, has just been released. The flick, set in liberal San Francisco, tackles polyamory among girl-boy couples, but there's still hope fans will get some girl-girl action along the way.
